This class will introduce students to artistic projects reflecting our historical time period, Early Modern-1600-1850. Students will be given the opportunity to experiment with a number of mediums such as pastel, charcoal, clay, paint, etc. The primary focus for this class is to allow students to freely express their individuality while learning about the artistic achievements and works of this time period. By the end of the school year, students will have compiled a collection of their artwork. Our year will culminate with a student art show where students will have a chance to display their work.
