Core Resource B & C

Core Resource is a new offering for 2010-2011. This small group setting is a way for your student to receive reinforcement of concepts from Core and as well, to help students “get off the ground” for the week’s home assignments (and provide clarification/direction if needed). This class will not introduce new material/curriculum, but simply revisit the concepts and assignments from Core to reinforce and support the student. The teacher will facilitate review and study skills linked to the material from Core at HSU. Parents are encouraged to speak to Chris Leone and/or Mandy Bell to clarify any questions about Core Resource. Class size is very limited, please register your student early! ☺

*Per the discretion of the teacher, modified work **may** be provided for Core Classes limited to those students enrolled in Core Resource. Modified work may not be necessary for your student.*

Mandy Bell

(Core C, Core Resources Elementary Science, Core 201-Lit/Writing/History)

This is Mandy’s third year teaching at HSU. She received her B.A. (in Elementary Education) degree from North Central College in Naperville with minors/endorsements in Language Arts and Music. Mandy was North Central College’s 2002 Outstanding Graduate in Elementary Education. After graduation from college, Mandy taught in the public school system as a 5th grade teacher. She has a great love of curriculum, and greatly enjoys creating and developing ideas/ activities for her classroom! Mandy feels privileged to be teaching at HSU and is very excited about the upcoming school year! She and her husband recently celebrated their daughter Ferran’s first birthday. The Bells love animals and reside in the suburbs with their dog, Elton, and the gophers, bunnies, frogs and other creatures that are frequently found in their yard. Mandy loves to teach, read, travel, scrapbook, cook, play the piano, and be with her family.
