Teacher: Mary Kiel

Grade level - (K) st and 2nd

Text to purchase: None

Join us for math-strengthening activities and games! This class will simply be a complement to whatever math curriculum you may be using at home. Concepts will be introduced and/or reviewed and students will enjoy using manipulatives for some hands-on learning. The focus will be on increasing students' understanding of math concepts and practical application of those concepts to everyday life.

Homework = None

Mary Kiel (Math Fun, Lead Teacher for Core Block A & B, History for Core 201 & 202, Tutoring (all ages) & Beginner Piano Lessons)

Mary and her husband, Brian, reside in West Chicago with their four children, ranging in age from 9 to 16. Mary has a BA in History & Psychology from Trinity Christian University, with a teaching certificate in secondary education. Her background includes many years of working with students of all ages, from inmates at the Cook County Jail to high schoolers, all the way down to preschoolers. She has worked as a substitute at a few local schools, and volunteering at Turner Elementary. PTO has also occupied her time. Since being at HSU, Mary has assisted struggling readers and helped them to become excited, motivated readers. In addition, she also teaches piano and has an avid love for music. When you watch Mary in action, it is obvious that she is a gifted teacher, no matter what the subject! This is her 4th year on our teaching staff, and we are thankful for her!
